

Learn the Art of Marbling

Tutor: Andrea Marriette

Website: andreamarriette/artworks

This workshop will unleash their creative talents. The results are unique and can make fantastic decorations, gifts, or spectacular artwork to dress up your walls.

Ages: 5 years (kindy) and over

Level: Beginners

When: Sunday 25 November

Time: 1:00pm to 3:30pm

Place: gallery57, corner Clermont Ave and Wellbank St, Concord

Cost: \$38:00 per child which includes materials, payable in advance (min 6 students, max 12 students so early bookings are essential)

About Andrea:

Andrea an artist, illustrator and digital artist and has assisted many companies with new branding/rebranding and creation of marketing material.

From a very young age Andrea was in love with arts and crafts. When she left high school she proceeded with her passion and attended 5 years through College and University studying art and design in the UK. Over the years Andrea has also painted murals in restaurants and children's bedrooms. She even owned and managed a children's boutique for 7 years creating clothing, toys, gifts and accessories for kids and parents. Creation of any aspect never stops with Andrea.

When it comes to art Andrea doesn't sticks to a theme or style, she just paints, draws or creates whatever stimulates or inspires her at the time, as she sees it through her eyes.

Class outcomes:

This class will teach children the introduction to marbling on paper using shaving foam and poster paints. Then they will be shown various ways of how they can use this marbled paper and turn them into Christmas decorations to hang on the tree, or spectacular artworks on canvas. The child can make that decision on the day in class if they want to create decorations or artworks for their bedroom wall. We will provide paper, shape templates for tracing, ribbon, canvases, washable glue, gloves and maybe even glitter.

Students will create 2-3 marbled paper patterns. The third one is to take home for you to see how creative your child can be. And you may even be keen to try it yourself!

What your child needs to bring:

- Apron - Most important, it can get messy.
- A water bottle and a little snack so they don't get hungry.
