About Jose:

Jose is fluent in many mediums including oils, watercolours, acrylic, gouache and pastels. Jose also practices photography. Technology and computers are part of his interests with digital art adding an extra dimension and form of expression to his work. Jose believes 'the subject matter' will always determine the choice of medium. Jose does not have a singular genre of preference in his work which may include landscapes, seascapes, portraiture, abstracts, people or just anything that may excite his senses. Jose approaches all art genres with the same fresh feeling of awe. His art is found in private collections in Australia, USA, Chile and India.

Class outcomes:

This class will teach students an introduction to the principals of drawing and encourage students to work at their own creative level and produce individual works from photos or still life set up.
