About Sylvia:

Xiu Luo Sun (Sylvia) is a Chinese Australian artist with over 30 years experience in teaching, painting and drawing. After graduating from Qingdao University, China in 1985 and majoring in textiles and fashion design, she became an art and design lecturer. In China, Sylvia participated in numerous painting exhibitions and winning awards in multiple stage costume and fashion design competitions. In Australia she has been exploring still life paintings and experimenting with colour and pattern in oils, acrylic and pastels and turning every-day items such as flowers, vases, fruits and tea sets into extraordinary expressions of beauty and depth. She sees still life as an inanimate amalgamation of composition, decoration, rigor and flexibility. Xiu Luo's paintings and artworks have been exhibited and published on many occasions overseas and in Australia, with several pieces currently in the possession of private collectors.

Class outcomes:

This class will show students the drawing steps necessary for the construction of a drawing including light and shade, perspective and composition. Classes will include subjects such as still life and flowers, how to draw animals and employ creativity in your work.
